FROM NEW YORK TO NAPLES.

BY ELD. Z. T. WILLIAMS.

Editor of the News:

We wrote our last notes from New York on the 9th inst. On the 10th at 1 o'clock the Spartan Prince, our steamer, sounded her signal for moving out. Two small launch boats laid hold on her, one in front and one at her side, and tugged her out of port into sea. As the great iron steamer began to move out, and I realized we were disconnected from land, and that it would be at least ten days before we would see land again, I had some very serious thoughts to press upon me. Would we, in the providence of our Heavenly Father be permitted to return to this native land again. But I could not afford to dwell on such thoughts long. So, as we glided out in the bay, the Station of Liberty attracted our attention, which is situated on Bedloe's Island, one mile out in the bay. It is the largest statue in the world. It was presented to the United States by the French nation, and was made by the French artist, Bartholdi. The pedestal is about 151 feet and the statue 153 feet, making a total of 304 feet in height.

In a short time our vessel began to increase her speed, and the cities of New York and Brooklyn began to grow dim in the distance, and soon we were out of sight of land.

We have 42 cabin passengers, 17 females and 25 males; and we were glad to find them all congenial companions with very few exceptions. Several States are represented, as well as some foreign nations. The officers of the vessel are mostly English, as the ship is owned by an English Company.

Our vessel is not a large one, but can carry only 5,000 tons. She is 351 feet long, has two large boilers and one triple compound engine. It is made of steel and is strong, well-ribbed. I was really surprised at the security one finds on the sea. One can rest easily and feel safe.

The Azores group, consisting of nine islands, was discovered by some Portuguese navigators in 1432 to 1462. The islands have their origin from a volcanic eruption. This is evident from the fact that craters are clearly visible, lava and gassy emanations. On the St. Nickalls the hills rise up in regular order in well formed peaks and are fertile to the very top and are cultivated in various kinds of fruits and vegetables. The population of the entire group is 270,000.

On the morning of the 24th instant, we were awakened at 5 o'clock to see the historic Gibraltar, but it was so dark at that hour we could only see the outline of the great rock. It is a great promontory, three miles in length, 7 miles in circumference, and its height is 1,490 feet above the level of the sea. It is limestone and marble. It is the most formidable fort in the world. It guards the passage from the Mediterranean to the Atlantic, and it has been held by the English Government since 1705. Prior to that date it was held for a long period by Spain. It is on the coast of Spain, and it is a wonder she ever permitted it to be taken. But in 1705, when the Spanish fleet fought off the English seeing her chance, seized her opportunity, and captured it. France, Spain and other nations have united since to take it and some famous naval battles have been fought there.

On the second Sunday of the voyage we passed a small vessel in full rig, the first one we had ever seen. She was making slow time, as the wind was headward; had been out 135 days. On Monday morning, the 19th inst., we were called out earlier than usual to see the first of the group of the Azores Islands—Fajal and Pico. This was a delightful change, for it was the first land we had beheld for many days. Several towns and villages could be seen on the coast. Fajal has a population of 24,000 and is in a good state of cultivation. Pico is the larger of the two and is a very considerable mountain—called by the name of the Island. It is 7,013 feet high. On its summit is a beautiful well-shaped peak, 900 feet high, and looks very much like a large well-formed haystack. The summit was covered with snow, and two clouds with beautiful silver lining were nesting over it on each side, leaving an opening, so we could see the bright peak rising

war vessels cannot pass through in time of war unobserved.

We had delightful 36 hours sail before we reached the Mediterranean, and it has continued so the three days we have sailed on the water's peaceful bosom.

We are two days behind time, and will arrive at Naples the 27th inst., instead of the 15th.

To-day, the 26th, we are passing in sight of the island of Sardinia. We have not been able to learn anything definitely of area or population. It belongs to Italy.

The next land we sight will be at the end of our first voyage—Naples, which we hope to reach in 24 hours. There we will give the finishing touch to this letter, now too long.

March 27th. We are now in sight of Mt. Vesuvius and will land in two hours. It is raining and a high gale is blowing. We are all glad we are so near our first destination. Though the voyage has been rather pleasant, yet, seventeen days is a long voyage on sea.

We had a delightful closing concert last night, and most all the passengers took part in songs, piano solos, recitations, speeches, &c. We feel like a great family about to separate, and realize we are about to part that we will never all meet again on this side of eternity.

We are now in our hotel in Naples, safe and in good shape. It's raining, and we will not have a chance to see any of Naples to-night. We sail from here to-morrow afternoon at 5 o'clock for Alexandria.

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling of it whenever opportunity offers, hoping that it may be of service to others. We have the means of saving other lives. For sale by M. Cravens.

Famine in India.

The horrors of this famine bid fair to break the record of all the ages for ghastly suffering and death. The sufferers who can lift a shovel are put on relief work on railroads and other industries at the rate of 250,000 per week at present. This leaves the multitudes of those who are too nearly famished for work, to starve and die in awful agony. The very streets in the vicinity of some relief stations are so filled with the famishing that they are impassable for thoroughfares. At this rate a quarter of a million a week taken upon the government relief works, the resources of the Empire will soon be exhausted and adults and children will be left to perish by myriads. The outlook is appalling. The country has not yet recovered from the famine of '97 and the vast populace are impoverished by their sufferings in the same, which millions of them have barely survived, so that this stroke that is spreading death and desolation will make rapid work with the masses. Many of these adult idolaters may deserve the divine judgments, but the innocent children, shall we not quickly rescue them for Christ? Who will undertake the support of one of these famine orphans at only \$20 a year? Better that gold will be the blessing of the Lord upon that household who deny themselves to support a famine wife.

Almost Blind.

My little four year old girl's eyes were so weak from birth, that she could not stand any light at all. Was treated by several physicians without benefit. My neighbors induced me to buy Morley's Saraparite and Iron from Mr. O. Daugherty, Banock, Ky. These bottles not only restored her sight, but made her stronger and healthier than she ever was in her life. DAVID KESSING. For sale by W. M. Bell, Joppa, Ky.

The State Prison Commissioners organized their board last week, electing Commissioners: Edward Fenell, of Harrison county, chairman. It is announced that no changes will be made in the officials of the prisons.

WEDNESDAY, APR. 18.

W. S. Taylor, of Butler county, is in Washington.

There will be enough cold waves before July 4th to make frost out of the Dewey boom.

There is much sickness in Porto Rico. Medicine is scarce and people are dying rapidly.

The Republicans of Indiana are all torn to pieces, and the Porto Rican tariff law put them still further apart.

When the Philippines hear of the fate of the Porto Ricans they will fight the harder for independence.

Mr. Dewey says he has always been a Democrat. Well, that is all right, but Bryan will be the next President.

Two-thirds of the Greensburg Malitz Company recognizes Mr. Beckham as the legal Governor, and have asked to be discharged.

Congressman Berry will have strong opposition for renomination in the Sixth district. There are six or seven possible candidates mentioned.

The County Clerk of Green, Mr. P. F. Marshall, recognizes the State Democratic Administration—sending his check last week for the amount due the State from his office.

In the Alabama primary last Saturday Senator Morgan was re-nominated for United States Senator, carrying nearly every county in the State.

Messrs. Lewis McQuown and Helm Bruce, representing the Democrats and Republicans, respectively, left for Washington last Saturday and will present the Gubernatorial case to the Supreme Court this week.

There will be no change in date or place for holding the National Democratic Convention. It will be held at Kansas City July 4, and a new hall will be ready to take the place of the one destroyed by fire.

Speaking of the contest Mr. McQuown said: "We expect the court to hear argument within ten days after the record is filed. The Supreme court adjourns May 15 until about October. The court bears no argument in any case, as I understand it, after May 1. Between May 1 and May 15 the time is devoted to handing down opinions and decisions."

Last Thursday McKinley signed the Porto Rican tariff bill and it is now a law. The first Governor of the island will be Charles H. Allen, at present Assistant Secretary of the Navy. His salary will be \$8,000 a year. The Republicans will never reconcile large number of their own party to this obnoxious law, which nothing more than a burden upon a people who were expecting and had reason to expect better treatment from patriotic Americans.

THE PAST—LOOKING AHEAD.

If the Supreme Court decides that it has no jurisdiction over the political middle in this State, as we verily believe it will, then we will have a gubernatorial race this fall. Already the question is being agitated as to the logical Democratic candidate, the man who can best serve our party's interests and the interest of our State. We trust that good judgment may guide in our party councils, that discreet acts may clothe our party press and that we may all work together as in the good old times of long ago. It was apparent to our mind when the fight was on last year by the three candidates for the nomination, that it was too bitter; that the Democratic press of the State was too rank; that we were all practically demanding that our personal preference must be selected or the party ruined. We all know the result and many of us realize the magnitude of our mistakes.

News has no apologies to offer for its expressions, for it has won support of Mr. Hardin for the nomination, and we were defeated, for its best endeavors to assist in the election of Mr. Goebel.

In the future, as in the past, we will be found true to party and true to convictions, doing all within our power that is fair and right for the best interest of the country and the Democratic party, but we wish to state that we do not intend to surrender that freedom and independence that should characterize honest public expressions that relate to the interest of our friends and our party.

We believe the time is approaching, that an opportunity is near, when our party can free itself from all of the complications that have produced divisions, contentions and unsatisfactory results within its own ranks. In our mind this can be done in the selection of our next candidate for Governor. We advocate a conservative policy, and that is to select a Democrat who has had no entangling alliance with the extremes, who has done his duty as a citizen, as a Democrat, and who has not embittered any part of his party. Such a nominee would unite our party and give new life and a certain and decisive victory.

There are many able Democrats from whom to select a candidate, but we do not know a man in this State who is better adapted to unite all Democrats, dispel the bitterness of the past, score a great victory next November, and make a Governor that would make every true Kentuckian proud, than Hon. Geo. E. Stone, of Casey. He is a Democrat whose hands have never been soiled by degraded political work, whose Democracy has never been questioned, a lawyer of fine ability. He is fifty-two years of age, and would make a Governor that would restore Kentucky to her original proud standing. We feel that a better man could not be found. While he may not be known throughout the State, yet to meet him and hear him on the great question would satisfy the most exacting.

At a meeting of the Ohio Association of Democratic clubs held at Columbus, last week, a resolution was passed, reaffirming the Chicago platform, denouncing imperialism, the Porto Rican tariff, trusts and railroad combinations. It expressed sympathy for the Boer and demanded a solid delegation from Ohio for William J. Bryan.

The political situation in this State has been cleared considerably by late of the decision of the highest Court in our State. The case will now go to the Supreme Court, and its decision will settle the controversy. It is the judgment of some of the ablest constitutional lawyers of the entire country that the United States Court has no jurisdiction in this matter.

A statement comes from Frankfort that the Republicans have repudiated their proposition for an agreement to advance the pending cases of the Democratic State offices against the usurpers. A refusal is probably due to a desire to hold on to the offices as long as they can. The Democrats will push the cases, and there is a possibility that the Republicans will be indicted for usurpation of office.

Speaking of the contest Mr. McQuown said: "We expect the court to hear argument within ten days after the record is filed. The Supreme court adjourns May 15 until about October. The court bears no argument in any case, as I understand it, after May 1. Between May 1 and May 15 the time is devoted to handing down opinions and decisions."

The National House of Representatives has passed a bill favoring the election of United States Senators by popular vote. A large majority favored it. The old chair-warmer in the Senate are very apt to kill the bill.

Judge John R. Sampson, of Middlesborough, has been mentioned as a probable candidate for Judge of the Court of Appeals to succeed Chief Justice Hazelrigg. Mr. Sampson is an excellent lawyer, a gentleman of high character, and his Adair county friends would be glad to see him the bench.

Senator-elect Blackburn sizes up the political outlook thusly: "In my Congressional experience of twenty-five years I have never had a Congress in the control of either party that made as many political blunders. If we can't wipe out the Republicans in November on the blunders made thus far by the fifty-sixth Congress we ought to go out of the business. They have made up the issues of imperialism, militarism and trusts exactly to our liking. Indeed, if they had deliberately started in to make a good job of it for us they could not have done better. Having these facts in mind I feel certain that the Republican managers will hasten the close of the session, and welcome the day when they can breath easy again so far as Congress is concerned. For this reason I do not believe any effort will be made to force the ship through the canal by bill. The Republicans are not looking for more trouble, unless we have gone crazy."

Mr. W. B

Sense and Nonsense.

Roast beef that is not well done is a rare thing.

Fortune does not change men; it only unmakes them.

By sowing frugality we reap liberty, a golden harvest.

Some men spend a lot of money practicing economy.

A hungry parrot comes very near being a hollow mockery.

Be sure you are right—then let your wife have her own way.

As a mose collector the rolling joke easily distances all things.

A pretty girl thinks every mirror she sees is worth looking into.

There is an end to all things—except one's desire for new things.

As a midnight entertainer the average cat is a howling success.

As a rule country folks think more of their kin folks than town folks.

Be not the fourth friend of him who had three before and lost them.

The girl who runs away to get married will very likely walk home.

The truth is what two persons speak when they fall out with each other.

The young man's resolution to quit using tobacco usually ends in smoke.

Only a mother thinks her daughter's faithful piano practice is sweet music.

A man can talk himself out of a job easier than he can work himself into one.

Some men have the faculty of letting their friends and relatives worry for them.

Baseball pitchers, letter carriers and preachers are judged by their delivery.

Want and sorrow are the wages that folly carps for itself, and they are generally paid.

To enable you to get yourself out, buy a small puppy and tie him to the collar.

The Presidential bee in a man's bonnet seldom fills it with the honey of happiness.

The woman who marries a man to reform him seldom lives long enough to finish the job.

Prohibition will never flourish as long as the price of a glass of lemonade will buy two beers.

After a man gets to be 40 years old his stomach refuses to have anything to do with angel food.

A man may be as honest as the day is long, and still do a great deal of mischief during the night.

To be able to bear provocation is an argument of great reason, and to forgive it, of a great mind.

The sermon is always short to the woman who wears a new bonnet to church, for the first time.

Every cloud may have a silver lining, but the average man is satisfied if his pocket is lined with silver.

To Cure A Cold In One Day
Take Laxative Bromo Quinine Tablets
All druggists refuse the money if it fails to cure. E. W. Grove's signature on every box. 25c.

Ex-Governor Bradley is spoken of as a candidate for Congress from the Fifth District.

Pneumonia is one of the most dangerous and fatal diseases. It always results from a cold. Chamberlain's Cough Remedy will quickly cure a cold and prevent an attack of pneumonia. It is in fact made especially for that ailment and has become famous for its cures over a large part of the civilized world. It counteracts any tendency of a cold toward pneumonia. Can you afford to neglect your cold when so reliable a remedy can be had for a trifle? For sale by M. Cravens.

Ligher Humphreys, aged sixty years, committed suicide at his home in Shelby county by hanging from a rafter in an out building.
